

# PEACE BUILDING & RESOLUTION OF CONFLICTS

# DESCRIPTION

It is required that the population of the villages separated from the Hospital San Rafael de Fusagasuga, can access priority care so that the patients do not have to travel to resolve diagnoses and previous examinations, so that a general doctor or specialist of the Hospital can take decisions and can avoid these displacements if necessary.

The Province of Sumapaz has the Fusagasuga Hospital service, which is Second Level. However, the rural area does not have adequate care, and this represents 40% of the total population.
