

**SAFE SLEEP SAVES  
LIFE**

# Description

- The Santi Foundation works to support expectant mothers living in areas of extreme poverty, where it is usual for newborn babies to sleep in their parents' bed, under conditions of extreme risk of suffocation.
- Extreme poverty and the lack of training in the care and management of babies increase the numbers of sudden death in children under one year of age.
  - Through a training program for a group of mothers, who will be multipliers with more mothers, and the delivery of Ecocunas and safe sleep trousseau, 600 pregnant and lactating mothers of children under one (1) year will be attended.
- The impact will be greater when visiting remote populations of urban areas, with little or minimal resources and education on the care of babies.
