

RECICRAI

# Description

ReciCRAI is born from the inadequate manipulation and disposition of waste at the educational institution, where students, teachers and senior managers do not have a clear perception of the “recycling” concept, throwing paper, plastic, carton, organics, and so on in the same can. This project is the means to promote not only environmental awareness, but also peace positive actions like collaborative work, sense of belonging, environmental values that are going to be the result of awareness campaigns, training, recycling work from the educational community. The project is hoped to generate an initial impact in 350 students from 6th, 7th and 8th grades, their families, 15 teachers and senior managers and the recyclers, in the first phase in “Armenia City”.

# Area of focus

➤ Armenia – Quindío - Colombia

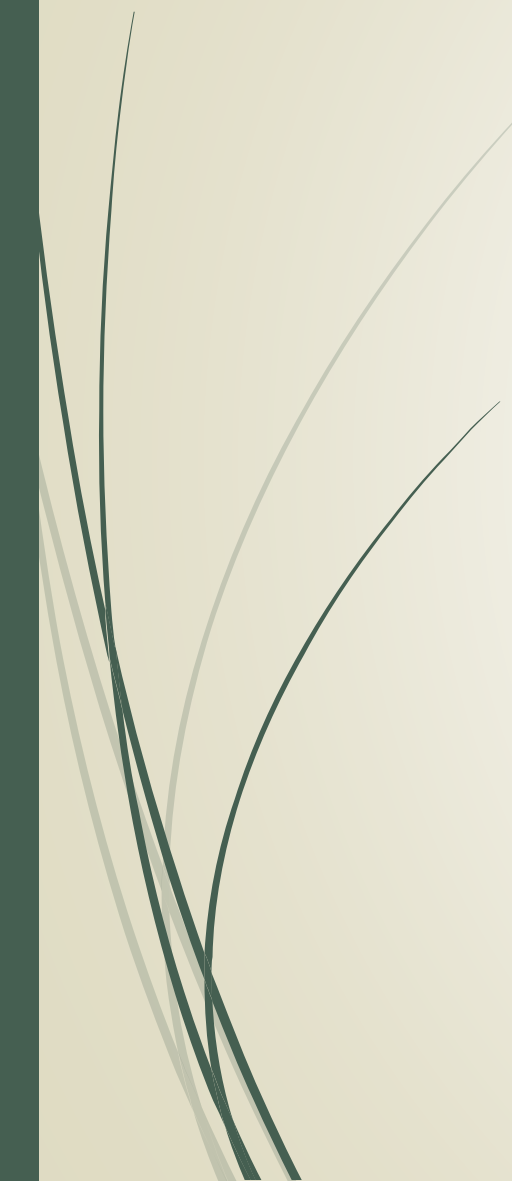

Peace Building & Resolution of Conflicts
